~~fall bingo~~ FALL BINGO!

art by @ncfieldnotes

FALL BINGO!

Come bird with us!!

Common Raven

Bald Eagle

- Their white head and tail feathers appear around 4 to 5 years old
- Often steals food from other birds instead of catching its own!

Red-breasted Merganser

- Holds the Guinness World Record for fastest duck in flight (130 km/h)
- Long beak!

Greater scaup

- Is a "diving" duck, going up to 10 m deep for food!
- Sometimes called a "bluebill" because of the male's blueish bill

Northern Cardinal

- Named for their bright red colour like a Catholic cardinal's robes
- Kingston's city bird along with the crow!

white-throated sparrow

- Has two colour morphs
- White morphs are more territorial and tan morphs are more submissive!

Cedar waxwing

- Gets more red tips on their wings as they age
- Loves a good berry!

American Coot

- Not a duck
- Has lobed toes, not webbed feet

white-breasted nuthatch

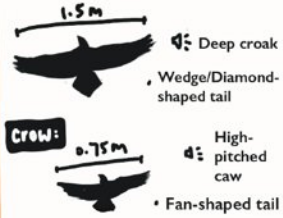

- Can walk headfirst down tree trunks (just like red-breasted nuthatch)
- Meep Meep!
